Fax: (519) 451-3097

26 April 13

Doug Coleman Trucking operate a regional transportation company doing business primarily within south western Ontario. We do operate into both Michigan and Ohio; however, we maintain many lanes strictly within Ontario. For that reason, we are able to consider drivers who may have a criminal record providing they are experienced OR have graduated from a recognized transportation training school.

We accept applications from drivers who are new to the industry providing they can present a certificate of completion from a recognized school. To that end, we welcome graduates of the Ontario Truck Driving School whom we have found to provide graduates of the highest calibre. These drivers join our company without actual formal experience and work with our driver trainer through an apprenticeship program during which they are monitored closely for their skills.

We have experienced excellent results with these graduates and invite any further questions to be directed to our Safety Department.
